# Pilatus PC-12 NGX

# Our aircraft

Our Pilatus PC-12 NGX aircraft is 100% owned by SkyCare Repatriation and is dedicated to air ambulance flights.

The aircraft is a single-engine turboprop chosen by SkyCare for its comfort, reliability, and proven safety record. In addition, its low carbon emissions and ability to land at thousands of airports worldwide make it the perfect combination of refinement, efficiency, and technological advancement.

# Flight range

The flight range of our air ambulance is 1,765 nautical miles, equivalent to 3,269 km on a full fuel load. We are also able to offer longer range flights outside of Europe.
